

# Product Guide

# ROCKWHEEL

## Lightweight Champion

### C2

Rockwheel with chain drive  
Carriers 1 to 3 tons

- Power: 13 hp (9.5 kw)
- Maintenance-free chain drive
- 66 kg - the lightest unit on the market

## Best Solution For Compact Carriers

### G5 / G5T

Rockwheel with gearbox drive  
Carriers 3 to 12 tons

- Power:  
G5: 30 hp (22 kW)  
G5 Twin: 60 (44 kW)
- Transmission with ratio for maximum torque
- G5 T has a second motor for double the power

**Rockwheel** is a must-have attachment for demolition, precision excavation, trenching, quarrying, secant wall, and many more applications.

## DEMOLITION

## PRECISION EXCAVATION

## TRENCHING

The Rockwheel line incorporates the latest developments in hydraulic rotary cutting technology. Invented and designed by the legendary team at Webster Technologies, Rockwheel is the most robust drum cutter attachment available.

### Direct Drive

## D10 / D15 / D20 / D30

Rockwheel with direct drive  
Carriers 8 to 42 tons

- Power:  
D10: 40 hp (29 kW)  
D15: 55 hp (41 kW)  
D20: 94 hp (70 kW)  
D30: 147 hp (110 kW)
- Robust Technology with only three main components: housing, motor and cutting drums

### Pure Power

## G40 / G50 / G60 / G125

Rockwheel with gearbox drive  
Carriers 30 to 150 tons

- Power:  
G40/G50: 190 hp (140 kW)  
G60: 295 hp (220 kW)  
G125: 536 hp (400 kW)
- Twin motor technology power and optimum weight distribution
- Designed for difficult working conditions and engineered for extended life

## CHANG

## QUARRY

## SECANT WALL

# AXIAL AND CUTTER BUCKETS

Rockwheel TC (trench cutter) models are ideal for precision trenching, while the AX (axial) models offer **single-drum** cutting capability for tough and unique cutting requirements.

## Trench Cutter Rockwheel

### TC20 / TC30

Rockwheel with direct drive, single drum  
Carriers 17 to 42 tons

- Power:  
TC20: 94 hp (70 kW)  
TC30: 147 hp (110 kW)
- Robust technology with only three main components: housing, motor and cutting drums
- Stabilizing wheel allows precision trenching to width of cutting drum

## Axial Direct Drive Rockwheel

### AX20 / AX30

Rockwheel with direct drive, single drum  
Carriers 17 to 42 tons

- Power:  
AX20: 94 hp (70 kW)  
AX30: 147 hp (110 kW)
- Robust construction with only three main components: housing, motor and cutting drums

AX30 Axial Grinder

CB20 Cutter Bucket

TC20 in a utility project

## Get more done with two tools in one.

The Cutter Bucket models combine a bucket with a Rockwheel to offer the utility for clean out integrated with the rock cutting prowess of the twin drum cutter.

### Bucket with integrated Rockwheel

## CB15 / CB20 / CB30

Rockwheel with direct drive and bucket housing  
Carriers 13 to 42 tons

- Power:
  - CB15: 55 hp (41 kW)
  - CB20: 94 hp (70 kW)
  - CB30: 147 hp (110 kW)
- Designed for rock excavation and quick clean out, reducing the tools needed on site

# ROCKCRUSHER

With over 35 years of experience in the crushing industry, **Rockcrusher** is the technology leader in the market.

This application knowledge, together with robust engineering and a focus on quality, guarantees the highest performance and product durability.

## Applications

- Demolition
- Recycling
- Excavation
- Infrastructure / Road construction
- Quarrying
- Natural stone processing

## Materials

- Concrete
- Brick
- Rock
- Glass and ceramic
- Asphalt
- Mixed inert material

Rockcrusher Model	Carrier Class Ton
<b>RC 7R (650)</b>	10 - 15
<b>RC 9R (750)</b>	15 - 25
<b>RC 11R (950)</b>	25 - 35
<b>RC 13R (1250)</b>	35 +

# ROCKSCREENER

The **ROCKSCREENER** XXL hopper and drum enables larger volumes to be loaded and processed, reducing cycle times per per ton. The XXL drum volume increases the throughput capacity, and hexagonal mesh guarantees consistent sorting.

## Applications

- Recycling
- Civil Engineering
- Landscaping
- Pipeline
- Road Construction
- Infrastructure
- Rock Processing
- Prescreening Construction Rubble

## Materials

- Rock
- Recycling Material
- Topsoil
- Wood Chips
- Light Materials
- Mixed Material

<b>Rockscreener Model</b>	<b>Carrier Class Ton</b>
<b>RSS800</b>	3 - 9
<b>RS800</b>	9 - 14
<b>RS1200</b>	14 - 25
<b>RS1600</b>	25 - 36
<b>RS2000</b>	35 +

# ROCKZONE MXR

## MIXER SERIES

RockZone MXR Series starts with a Rockwheel chassis, making them robust enough for the toughest mixing and remediation applications.

Every MXR is customizable to meet the conditions of the project. Features like drum lacing pattern, drum size, depth extension brackets, injection piping, depth limiters and collusion preventers are available.

Stabilization, solidification and remediation equipment for in situ treatment of:

- Soil
- Sludge
- Dredged material
- Contaminated sites
- Oil & gas drilling waste

AX Mixer Series  
Single-Drum Axial

MXR Series  
Twin drum long housing  
Mixers

# CONNECT<sup>TM</sup> WORK TOOLS

**ATTACHMENTS YOU CAN DEPEND ON  
FROM PEOPLE YOU TRUST**

**Oil-fired Breakers**

**Pulverizers**

**Gas-fired Breakers**

**Grapples**

**Demolition & Scrap  
Magnets**

**GET CONNECTED.
